

SOROIBE CHISOM CARRINGTON

Suveying & Geo-Informatics Graduate | GIS & Web Skills

Contact

Phone
+234 903 331 3525

Email
csoroibe@gmail.com

Address
18 Idumota Avenue, Bako Estate, Irawo Bus Stop, Ikorodu Road Lagos

Education

Bachelor of Science Degree (B.Sc.) in Surveying and Geo-Informatics
University of Benin
2020 - 2025
Class of Degree: Second Class Upper Division

Skills

- Graphics Design
- Web Development (Frontend Basics)
- Computer Operations (MS Word, Excel, general systems use)
- Surveying Field Assistance
- Data Collection & Observation
- Communication Skills
- Problem Solving
- Team Collaboration
- Time Management

Language

- English

Professional Experience

2024 – 2025

Industrial Training Experience

Federal Ministry of Works l Ogolonto, Ofin Road,

Ikorodu Road, Lagos State

SIWES / Student Surveyor Intern

- Assisted in road construction surveying and site layout activities
- Carried out road marking and alignment measurements under supervision
- Participated in determining excavation levels for drainage construction
- Supported engineers and surveyors in field data collection and documentation
- Gained practical knowledge of surveying instruments and construction site operations
- Developed teamwork and field reporting skills in a professional environment

TOOLS & TECHNOLOGY

- Microsoft Office Suite
- Basic Web Technologies (HTML, CSS, JavaScript – if applicable)
- General Computer Applications

STRENGTHS

- Fast learner with strong adaptability
- Strong attention to detail in field and digital work
- Ability to work effectively under supervision or in teams
- Creative and technically inclined

CAREER OBJECTIVE

To secure an entry-level position in surveying, GIS, construction, or a related technical field where I can apply my academic knowledge and practical experience while developing professionally and contributing to organizational growth.

Professional Experience

2024 – 2025

Industrial Training Experience

Federal Ministry of Works I Ogolonto, Ofin Road,

Ikorodu Road, Lagos State

SIWES / Student Surveyor Intern

- Assisted in road construction surveying and field layout operations
- Carried out road marking and alignment measurements on-site
- Supported engineers in determining drainage excavation levels and site gradients
- Collected and recorded field data for construction planning and execution
- Operated under supervision in a multidisciplinary engineering environment
- Gained practical exposure to surveying instruments and construction workflows

CORE SKILLS (SURVEYING & GIS FOCUSED)

- Land & Engineering Surveying (Field Assistance)
- Site Measurement & Leveling
- Construction Layout & Road Alignment
- Basic GIS Awareness (Mapping & Spatial Data Concepts)
- Data Collection & Field Reporting
- GPS & Surveying Instrument Familiarity (Theoretical/Practical Exposure)

IT & DIGITAL SKILLS

- Web Development (HTML, CSS, Basic JavaScript)
- Graphics Design (Creative and layout design)
- Computer Operations (MS Word, Excel, PowerPoint)
- Digital Documentation & Reporting
- Basic Troubleshooting and System Use

SOFT SKILLS

- Strong attention to detail
- Team collaboration in field environments
- Problem-solving and analytical thinking
- Ability to work under supervision and pressure
- Good communication and adaptability

CAREER OBJECTIVE

To obtain an entry-level position as a Surveyor, GIS Assistant, or IT/Web Support staff where I can apply my academic background in Surveying and Geo-Informatics alongside my technical digital skills, while contributing to organizational efficiency and developing professionally in a dynamic environment.
